Affordable Tiny Housing in Chapel Hill

Our project focuses on Affordable Housing in the town of Chapel Hill. Highly paid employees tend to live closer to UNC Chapel Hill while lesser paid employees live far away from UNC Chapel Hill, due to affordability of housing. We chose to look give suggestions for making housing more affordable through housing design, energy efficiency, and sustainable energy solutions. We hope these suggestions can lower cost of living in the town of Chapel Hill and provide employees of UNC (many of whom are directly impacted by the housing crisis) affordable and comfortable housing.
